

How to make a survival bracelet

I will show you how to make a survival bracelet using paracord and a shoe lace.

Step 1: Materials

Paracord

Shoe lace

Step 2: Setup

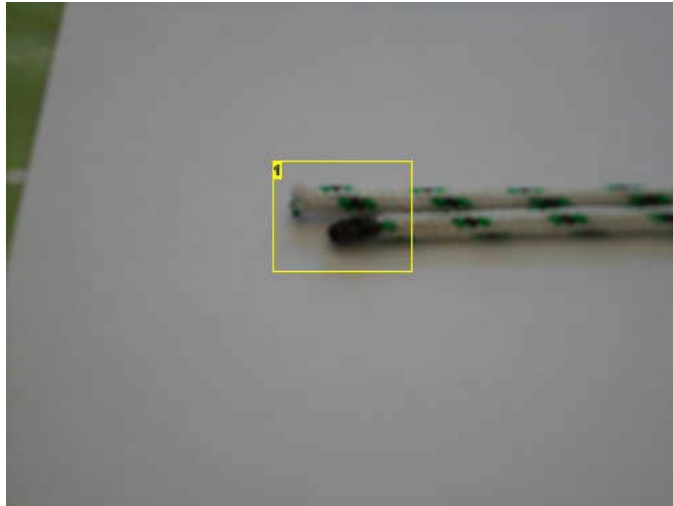

Image Notes

1. Line up ends of paracord so they are even

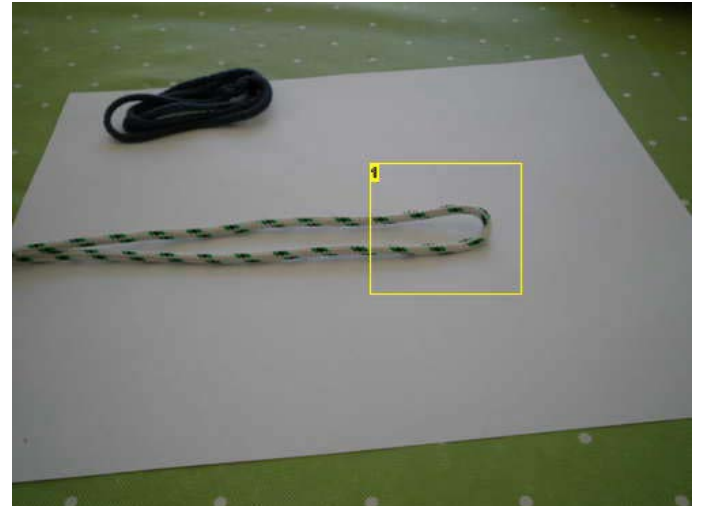

Image Notes

1. Make a loop on the other end

Step 3: Measure wrist

Image Notes

1. Here is good

Step 4:

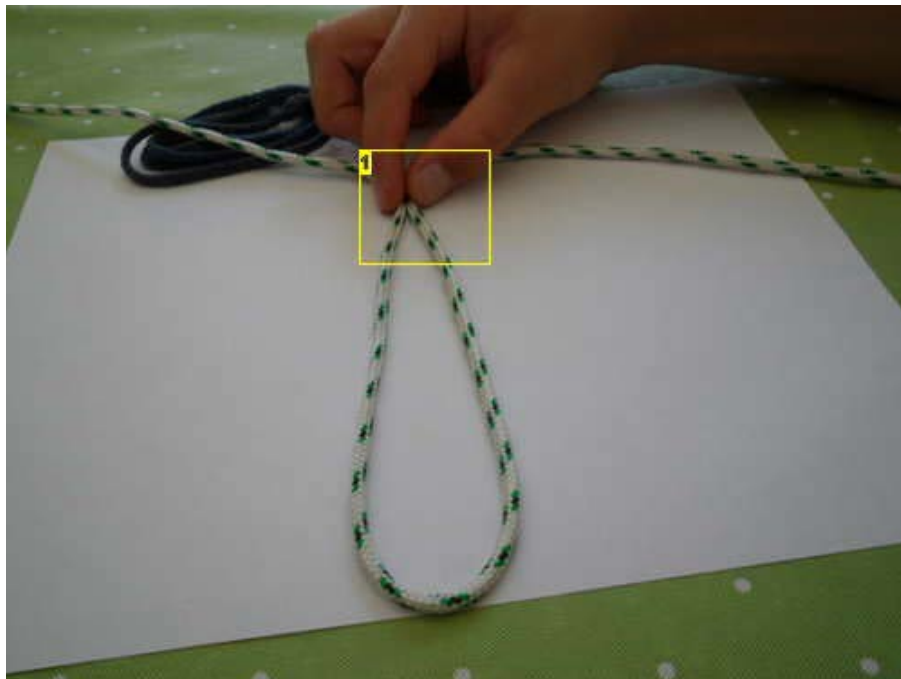

Image Notes

1. Measured spot

1. Tie shoe lace around measured mark

Step 5:

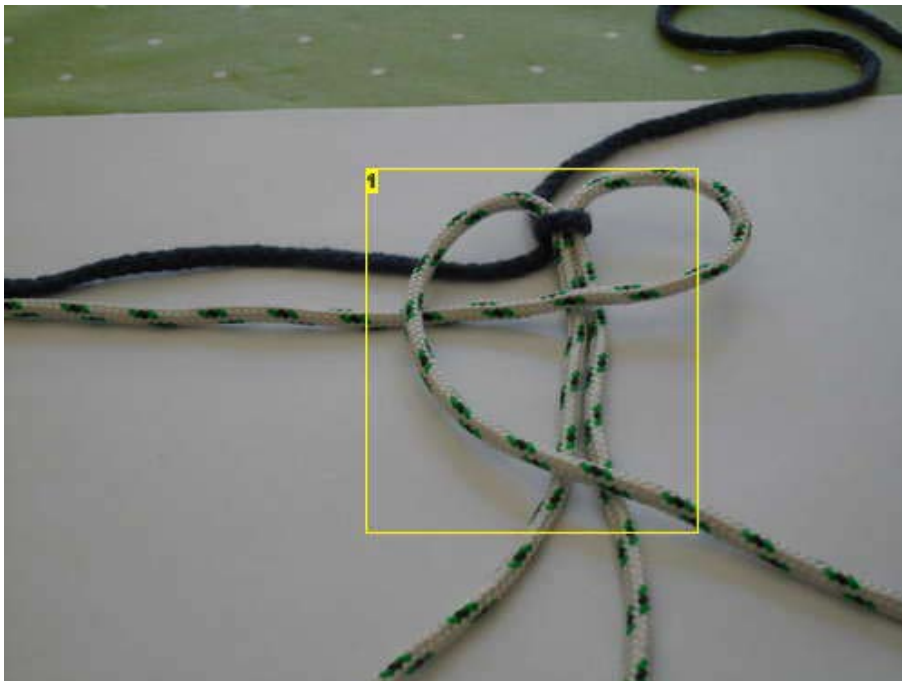

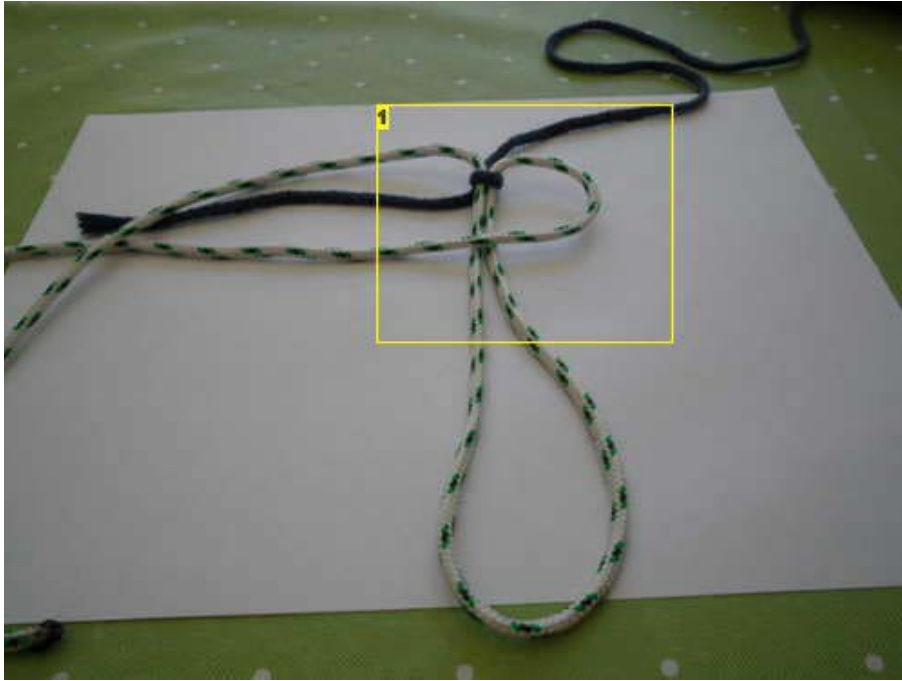

Image Notes

1. Take right string and put over two strings with loop

1. Put left string over right

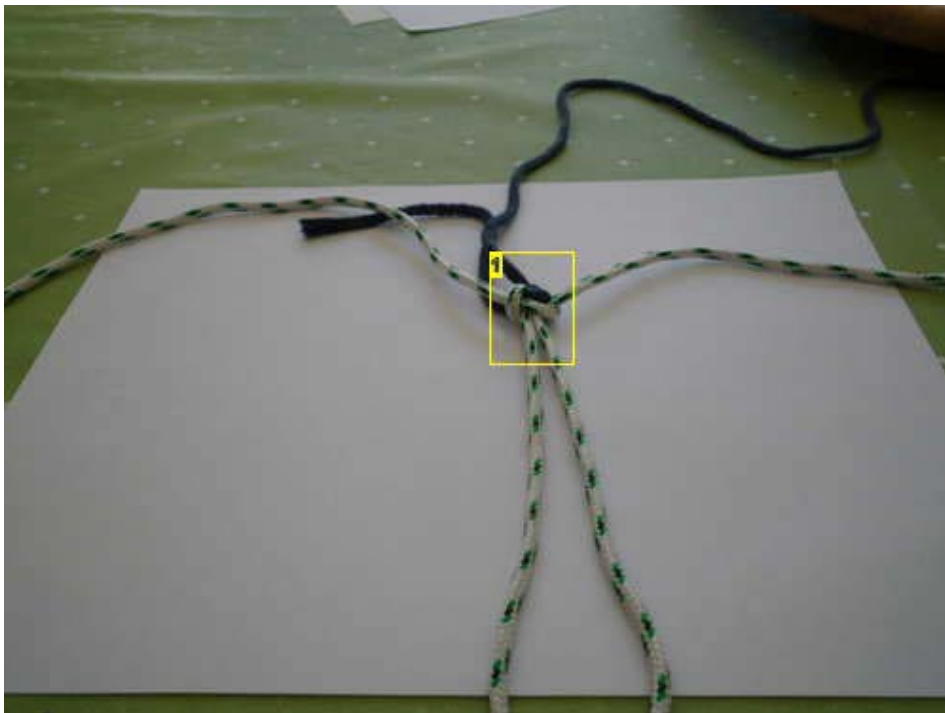

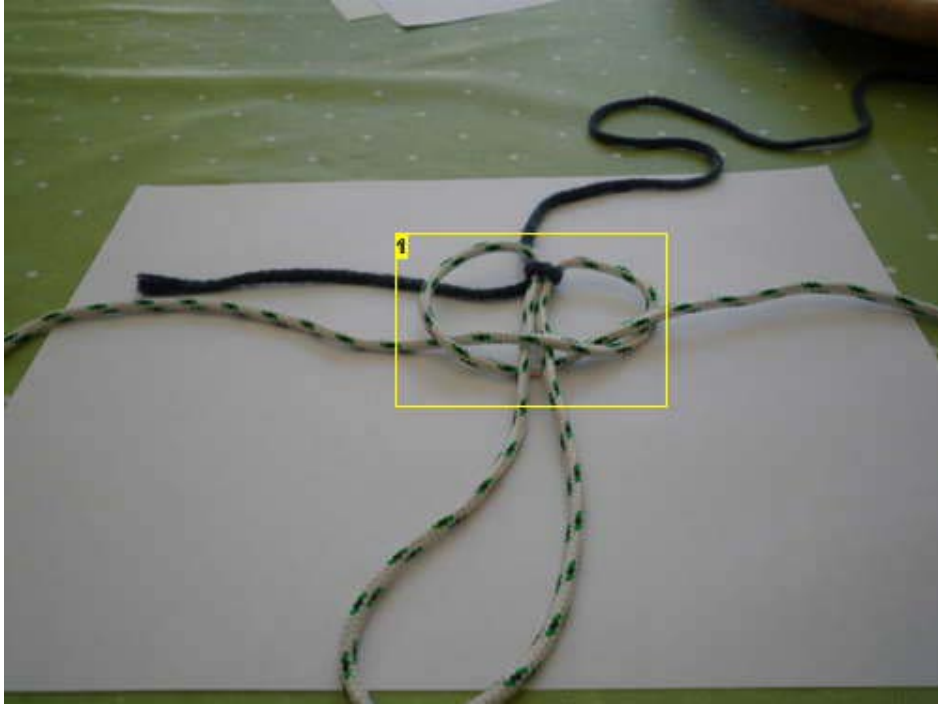

Image Notes

1. Put left string under two strings with loop.

1. Pull both ends tight

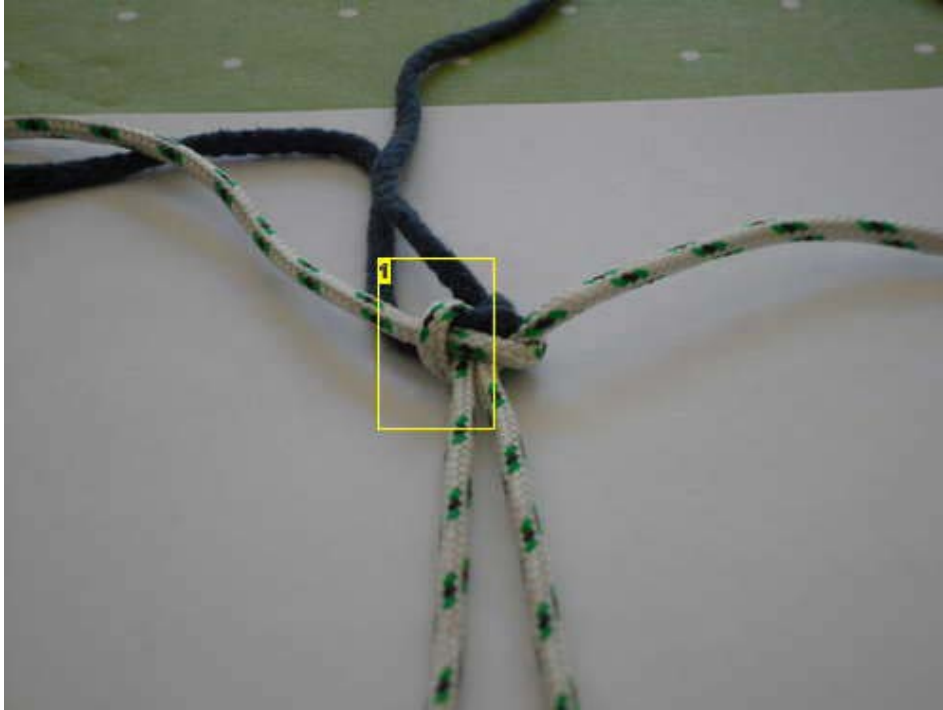

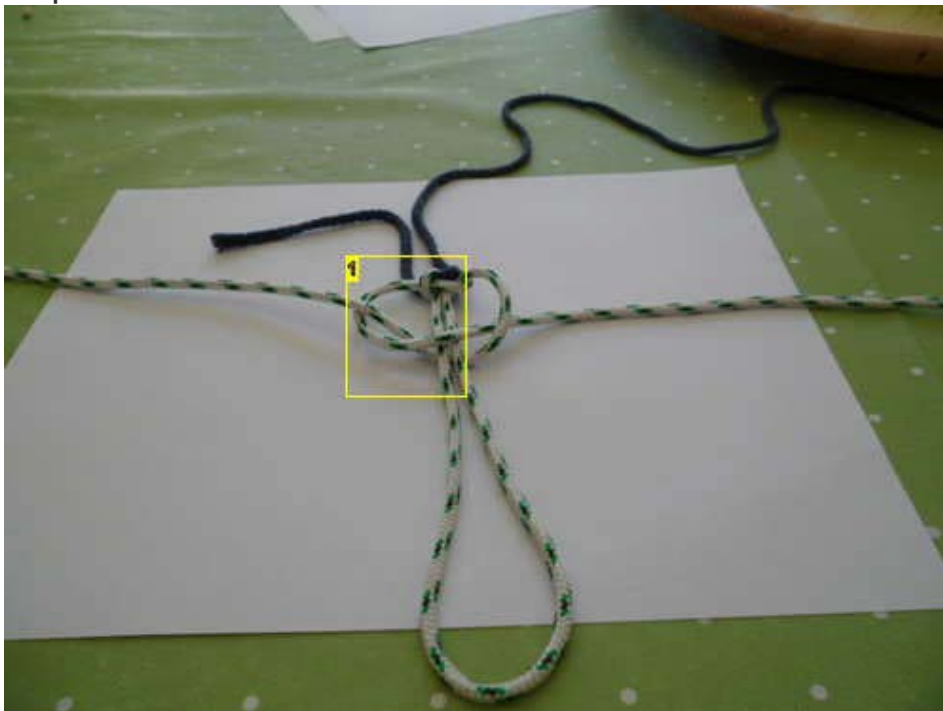

Image Notes

1. This is what is going to tell you what string you have to loop. It's on the left side so you have to loop the left side.

Step 6:

Repeat

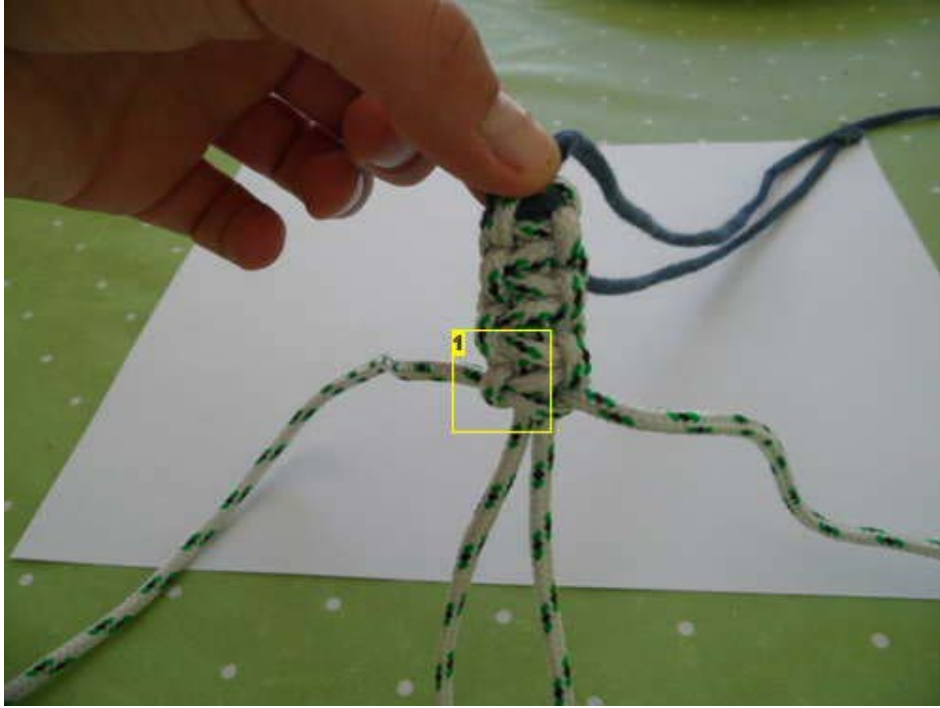

Image Notes

1. Left string is being looped
1. Loop is here so you have to start with the left one

Step 7: Done

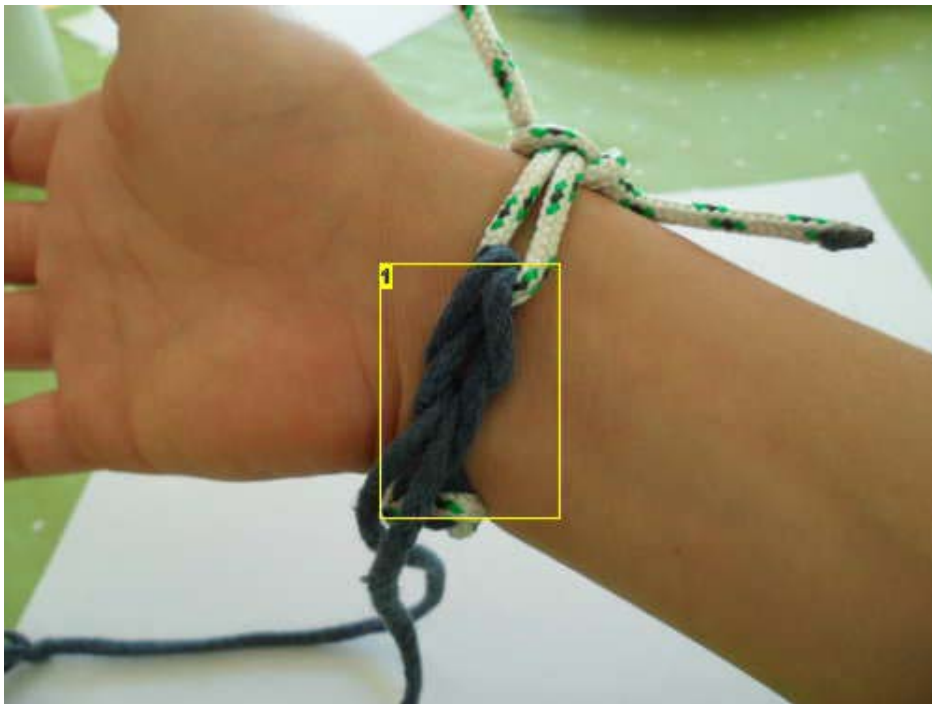

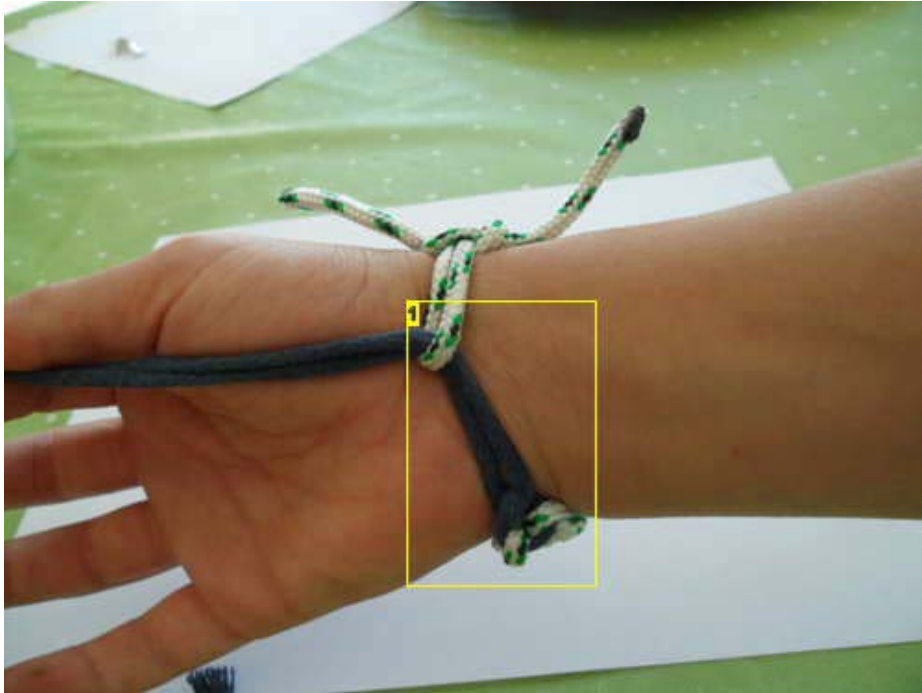

Image Notes

1. Wrap around wrist. Use shoelace to go through the loop.
1. Knot shoelace on itself so. bracelet doesn't come off
